

Classification of Graves and Pessac Léognan

As the classification of 1855 didn't involve the wines from Pessac-Léognan and Graves (except Haut-Brion) a wine Union decided to **establish a classification of the wines of these appellations in 1959**. This classification involves the red and white wines. All are from Pessac-Léognan.

Just like the classification of 1855 this ranking never changes in time. In all 16 estates are ranked.

Crus classés
